

## MASTER EDUCATOR PROGRAM

An in-depth, year-long collaborative cohort program dedicated to empowering educators with research-based knowledge, practices, and the professional network they need to be leaders in their districts and maximize students' learning.

### Program Highlights:

- 4 full-day professional development sessions at The Franklin Institute (July - May)
- 2 evening Science After Hours events
- 1-year family membership to The Franklin Institute
- 1 field trip for a class of up to 35 students plus chaperones
- 20 Act 48 credits
- Micro-certificate upon completion

# MASTER EDUCATOR PROGRAM

## MASTER EDUCATOR PROGRAM SESSIONS (attendance required)

### THE SCIENCE OF LEARNING

Gain a foundation in understanding the science of learning, supported by current research in neuroscience, cognitive science, and education. Educators from different districts get to know one another and The Franklin Institute exhibits through hands-on interactive activities.

### MINDSET AND MOTIVATION

Deepen your knowledge of how factors like curiosity, praise, and errors impact students' learning and mindset. Begin to adapt classroom curricula, and identify a project for how to utilize knowledge of how the brain works to influence teaching practice and school policies.

### FOCUS AND CREATIVITY

Extend your understanding of the brain to maximize focus and creativity through exploration of focused vs. diffuse learning, empowerment, and the mindful use of technology in a classroom. Begin implementing projects in schools, and advance work in implementing research-based practices and decision-making in schools and districts.

### UTILIZING THE FRANKLIN INSTITUTE

In this final session, Master Educators prepare to bring students on a field trip to The Franklin Institute as a capstone experience of the program, and make connections to hands-on science learning in a museum setting.

### GRADUATION AND PROJECT SHOWCASE

At the end of the year, colleagues, administrators, and school board members are invited to see a showcase of Master Educator's work and enjoy a celebratory ceremony for the graduating cohort.

### A PD unlike any other.

Developed and presented by **experts in the science of learning**, and using The Franklin Institute's signature brand of **interactive, dynamic experiences**, the Master Educator Program is **unlike any other in the Greater Philadelphia region**. This program provides educators with unparalleled **access to the museum** and our expert staff, while facilitating the unique opportunity to **collaborate with peers** within and across school districts.

#### Pricing

\$1500 per person\*

\*transportation and food for the field trip are not included.

#### How to Apply:

- Administrators are invited to apply on behalf of teams of 2-6 teachers and administrators from a school, district, or other educational institution. Limited scholarships are available.
- Applications are accepted until June 15th for each program year. Competitive applications include a mix of both administrators and teachers.
