The Franklin Institute &
The University of Pennsylvania
Departments of Biology & Genetics
present a symposium in honor of

Elaine Fuchs
Skin: The Remarkable Features of Our Body’s Surface

Wed, April 26, 2023, 10 AM — 11:30 AM
Coffee from 9:30a

Reunion Auditorium
John Morgan Building, 3620 Hamilton Walk

With presentations by Julie Segre, Ph.D., & Elaine Fuchs, Ph.D.

The 2023 Benjamin Franklin Medal in Life Sciences is presented to Elaine Fuchs for her research elucidating the genetics of skin diseases and mechanisms that guide skin renewal, yielding insights into aging, inflammation, and cancer.

Elaine Fuchs is the Rebecca C. Lancefield Professor and Investigator of the Howard Hughes Medical Institute at The Rockefeller University.

For nearly two centuries, The Franklin Institute has honored pioneering achievements in science, engineering, and industry. As the oldest comprehensive science awards program in the United States, The Franklin Institute Awards celebrates Benjamin Franklin’s legacy by honoring the Franklins of today. Through their remarkable contributions, our laureates inspire the Franklins of tomorrow.
