HOMESCHOOL WORKSHOPS
2015 - 2016

FALL INTO SCIENCE
October 8, 2015
Start the school year off right with a subject matter to FALL in love with. Explore everything orange today with the science of pumpkins, orange-colored chemistry, and the botany of carrots.

SPORTSZONE
November 12, 2015
Dive in to our brand-new exhibit, SportsZone, while you learn how to prepare your body, your equipment, and your brain to tackle your favorite sports.

EYE TO THE SKY
December 10, 2015
Explore the depths of the universe using the same tools as astronomers! Discover what stars thousands of miles are made of with the use of a spectroscope, get a closer look at our neighboring planets, and learn how some of the world’s most powerful telescopes are helping us unravel the mysteries of the universe.

SYSTEMS CHECK UP
February 11, 2016
Get to know yourself a little better by exploring the systems of the body and learn how they all work together to keep you running like a well-oiled machine.

WORKSHOP FEES: $55/STUDENT (MEMBER) | $60/STUDENT (NON-MEMBER)
