Volunteer Position Description

Position Title: PACTS Mentor

Department: PACTS (Partnerships in Achieving Careers in Technology and Science)

Volunteers Report to: Assistant Director of Youth Programs

Position Summary: The PACTS program is always looking for talented, professional educators and scientists who are able to act as role models for our young people who have an interest in science. PACTS students benefit from constructive, professional interactions with concerned, talented adults willing to work as workshop mentors and share their skills with the next generation of scientists and engineers.

Special Skills Required:
- Background in robotics; biology, design, and architecture.

Clearance Requirements: This position involves direct contact with children. Volunteers must meet background clearance requirements before they can begin.

Schedule Requirements: The PACTS Program meets Saturdays during the school year. Interested applicants must be able to commit to volunteering two Saturdays per month from September to June. Meeting times are usually from 9:00 am to 2:00 pm.
