SENSORY GUIDE: Space

THINGS TO KNOW:

Rugged Rovers: This is a computer game. Take your turn, but allows others a turn too.

Gravity Well: Push a marble as if you were starting to draw of a big circle around the top of the basin. You will see it roll around and around as it goes down into the hole in the middle.

Hint: The marbles come out in a small hole near the bottom of the front of the exhibit.

Design a Rover: Use K'NEX pieces to build a rover that is stable and will roll down the hill.

Hint: Work together and keep trying like an engineer!

Phases of the Moon: Stand on the circle of carpet and look up at the moon orbiting above you. Watch the phases of the moon change as the shadows change.
